

The clever packaging!

High quality, stable individual packaging for manufacturers and end users of modular milling heads made of solid carbide. The packaging assists the safe insert and securing of milling heads into the shank holder, as well as offering prevention of physical injuries.

- perfect protection of sharp-edged and delicate milling heads
- efficient packing, secure and easy removal
- simple handling; easy to open and close due to incorporated grooves in the base
- the cap ensures the injury-free and damage-free clamping of the tool changing head
- tight fit of the milling head due to clamping strips for wrench size and shaft diameter
- perfect presentation of tool

- packaging can be labelled and sealed
- durable and reusable
- oil and moisture resistant

Material

- Base made from impact resistant ABS
- Cap in Polypropylen (PP)

Availability

- Cap in transparent
- Base in grey or in various attractive colours available

Packing

- Base and Cap are packed separately in individual cartons
